EDUCATION

VIT Bhopal University
B.Tech - Computer Science and Engineering'27 - ***CGPA- 7.76***

Delhi Model Public School, Patna
CBSE (XII)

TECHNICAL SKILLS

- **Languages :** C++, C, Python, JavaScript, TypeScript, Java, SQL
- **Web and Frameworks :** React.js, Node.js, Express.js, REST APIs
- **Databases :** MongoDB, MySQL
- **Cloud and DevOps :** AWS, Docker, Git, CI/CD, Vercel, Render
- **AI/ML :** TensorFlow, PyTorch, Scikit-learn, Pandas, NumPy

PROJECTS

Real-Time Collaborative Whiteboard |

- Designed a real-time system using WebSockets (Socket.IO) to sync state across clients.
- Focused on event-driven architecture, latency handling, and failure cases.
- Documented architecture decisions and trade-offs for developer readability.
- Achieved low-latency synchronization for 5+ active users through optimized WebSocket communication.
- Applied Agile sprint iterations to enhance UI/UX with TailwindCSS and modular React components.

OpenAI Chess Game |

- Built an AI-powered chess system with 2 autonomous agents (White Black) ensuring 100% legal move.
- Designed a 3-agent multi-architecture with real-time board validation and secure game state management.
- Orchestrated real-time board validation logic for a 3-agent chess system with multi-architecture, eliminating 99% of potential game crashes/illegal move errors.

CERTIFICATIONS

- **IBM Certification :** Cyber Security Analyst **(certificate)**
- **Google Certification :** Google IT Support Certificate **(certificate)**
- **Google Certification :** Data Analyst Certificate **(certificate)**

ACHIEVEMENTS

- Won 5th place among 250 teams in "InnovateNSUT" Hackathon at NSUT Delhi.
- Qualified **JEE Main**
- **Codeforces : ajakash117** Maximum Rating **1124**. Global **Ranks 5097**, **5972**, **6035**
- **CodeChef : ajakash** Maximum Rating **1459**, **2 Star Coder**. Global **Ranks 483**, **740**, **1078**
- Solved **400+ Questions** across multiple Competitive Coding platforms.
